Rise And Shine AT AMALFI

Wake up to the river's whispers, where morning coffee meets the gentle touch of breeze. the scent of water and wet earth fills the air, and the symphony of the water flowing fills your soul in every sense. dewdrops glisten on the leaves and grass, reflecting the first light of day like tiny diamonds, when the rising sun paints the sky with hues of gold and pink, casting a warm, golden glow over the river like a gleam.
